

## Supporting Ontario Infrastructure Investments and Lands

August 19, 2015 – RCCAO and CL:AIRE Excess Construction Soils in Ontario Workshop

To take advantage of Nick Willenbrock's trip to Canada, which was funded 70/30 by MOECC/RCCAO, a half day workshop on "Managing Excess Construction Soils in Ontario" was held at the RCCAO offices. Forty industry and government representatives participated in the workshop. An update on the MOECC's Soil Handling BMP implementation activities as well as the current EBR Soil Policy Review status was provided by Jonathan Fernandes, Brownfields / Contaminated Sites Program Specialist, Operations Division, Central Region MOECC. Nick Willenbrock, Environmental Services, CL:AIRE provided an in-depth presentation on the CL:AIRE "Better Regulation" or co-regulation approach and provided informative parallels with Ontario's evolving system.
